PER AW
DEPUTY CLERK

Dear Judge Schwab,

I was expecting to participate in hearing 12-4-19, but on 12-4-19 @ 2:20pm in A unit (my unit) CO's office in the presence of CO Schoonmaker- CO Hufnagle, counselor, Terri Woodling approached me with psychologist Snell- Kooker @ CO's Office pretty much demanding I produce a 'Court Order' about the hearing, not realizing that when represented you don't get copy of Court Order. So now Psychologist filling in and counselor will probably 'notate' in file I'm 'delusional' because the ADM Bldg said they had nothing saying so, and wish to make you think I'm not competent. So... that being said, perhaps I'm not w/ TBI and they refuse to address/test due to head pain. And... not being competent voids settlement agreement from what I'm told and Mr. Love said he would quit if I didn't accept settlement putting undue pressure on me and I prefer to go to trial but will require appt of co-counsel preferably from Eastern District. PA DDC has not done a thing about Psychologist Terri Schweikle, so that takes one day. I want to go to trial. Thank you.

Respectfully,
Kelley QQ

INFORMATION BULLETIN

SUBJECT: Medical Sick Call

DATE: 12/03/2019

NOTICE: As of December 9, 2019, the sick call process will be changing to the following process:

New sick call slips will be utilized and passed out to the housing units.A nurse will collect sick call slips daily at 0800 for next day sick call.

An inmate must sign the cash slip prior to being seen by the practitioner. A refusal to sign the cash slip constitutes a refusal of medical services. If you must be seen, either urgently or non-urgently, and refuse to sign the cash slip, the co-pay policy (outlined below) will still apply to you.

An inmate WILL be charged a \$5 co-pay for the following:

*ANY non-emergent medical service provided at the inmate's request. Note that a sick call slip which is filled out by any inmate constitutes a request for medical services. Coming to sick call *without* filling out and/or signing the cash slip IS THE SAME as requesting medical services, and subject to all appropriate co-pay fees.

*ANY medical service, including emergency medical services, provided to an inmate when the injury or illness is self-inflicted, or when the injury or illness arises from the inmate's participation in a sport.

*Over-the-counter (OTC) and prescription medications NOT associated with a "Chronic Care Clinic" (as determined by the Practitioner, not the inmate) are subject to the **\$5.00 per prescription** co-pay fee. Medical staff will advise inmates when an appropriate OTC medication is available in the commissary. If an inmate still elects to receive the OTC medication during a sick call visit, *the co-pay fees will apply.*

An inmate WILL NOT be charged a co-pay fee for the following:

*ANY visit for medications and/or treatments associated with a "Chronic Care Clinic" (as determined by the Practitioner, not the inmate).

*ANY visit for medications that are being prescribed long term, are not associated with a "Chronic Care Clinic", AND have NOT EXPIRED. Expired prescriptions require medical re-evaluation and are subject to co-pay fees.

*ANY initial or follow-up visit ordered by the Practitioner. **EXCEPTION:** If you are called to Medical for an evaluation because you've informed your block officer that you were too sick to report to work, YOU WILL BE subject to co-pay charges.

*ANY work related injury that is confirmed by your supervisor.

*ANY unusual prison related infection or contamination as determined by the Practitioner.

NOTE: Over the counter (OTC) medications/items will be written for 30 days maximum and always be subject to the \$5.00 per prescription/item co-pay fee.
